CHAPTER 4

Assignment or amendment of MAC

Assignment of MAC

- 85.** (1) This section applies where the holder of a MAC (in this section referred to as the “proposed assignor”) wishes to assign the MAC to another person (in this section referred to as the “proposed assignee”).
- (2) F25[Subject to *subsection (2A)*, the proposed assignor] and the proposed assignee shall make a joint MAC application to the MARA for the MARA’s consent in writing to the assignment and, in the case of such application, *section 79* and the other provisions of this Part (including *section 84*) applicable to a MAC application and its determination under *section 81* shall, with all necessary modifications, apply accordingly.
- F26[(2A) Subject to *subsections (2B)* and *(2C)*, the Minister may by regulations specify—
- (a) a class of assignments (including identifying such class by reference to a class of proposed assignees in relation to whom assignments which fall within that class may be made) to which *subsection (2)* shall not apply, and
 - (b) the procedures or requirements that will apply to an application by the proposed assignor or the proposed assignee, or both of them, made to the MARA for the MARA’s consent in writing to an assignment which falls within that class (which procedures or requirements may be, or include, modifications of the procedures or requirements which apply to an assignment to which *subsection (2)* does apply).
- (2B) Where the Minister makes regulations under *subsection (2A)*, he or she shall, in addition to having regard to the other provisions of this Act, also have regard to the following principles and policies in relation to the class of assignments concerned and the procedures and requirements that will apply to the applications concerned:

- (a) whether the nature of an assignment which falls within that class, or the nature of the proposed assignee to whom the assignment may be made, or both, warrants the disapplication of *subsection (2)* to that class on the basis that to apply that subsection to that class would be disproportionate;
 - (b) whether the procedures and requirements applicable to those applications are more proportionate for the purposes of the assignment concerned than the procedures and requirements that would otherwise apply to the assignment by virtue of *subsection (2)* if that subsection were to apply to the assignment.

Levy framework

92. (1) Subject to *subsections (2) and (3)*, the MARA shall, as soon as is practicable after the establishment day and with the consent of the Minister for Public Expenditure and Reform, establish a framework (in this Chapter referred to as the “levy framework”) in accordance with which a levy shall be paid to the MARA by the holder of a MAC for the occupation of the part of the maritime area the subject of the MAC for the purposes of the undertaking of the maritime usage the subject of the MAC (including any potential such usage where, for whatever reason, the usage is yet to be undertaken).
- (2) The levy framework may provide for any of the following:
- (a) different levies for different classes of MACs, different classes of maritime usages the subject of MACs, different parts of the maritime area the subject of MACs or any combination thereof;
 - (b) levies calculated by reference to—
 - (i) specified amounts,
 - (ii) a range of amounts within which the levies concerned must fall, or
 - (iii) formulae;
 - (c) levies that are required to be paid upon the occurrence of a specified event;
 - (d) the circumstances in which levies may be specified at a nil or token amount;
 - (e) in the case of MACs to which *section 75* applies—
 - (i) levies that apply between the grant of the MACs and before the development permission concerned is granted (including different levies that apply by reference to different parts of the length of time effluxing between the grant of the MAC concerned and the grant of the development permission concerned), and

- (ii) levies that apply on and after the development permission concerned is granted.
- (3) The MARA shall, in establishing the levy framework, have regard to the following:
- (a) the nature of a class of maritime usages for which MACs may be granted;
 - (b) the degree of utilisation of parts of the maritime area that may be required by a class of maritime usages for which MACs may be granted (including the degree to which such utilisation may exclude the use by other persons of such parts);
 - (c) the likely profit or other benefit that may be gained by the holders of a class of MACs from the maritime usages the subject of those MACs;
 - (d) the likely public benefit to be gained from a class of maritime usages for which MACs may be granted;

- (5)(a) The MARA shall keep the levy framework under review and may amend (including amend by way of replacing) it as it thinks fit.
- (b) *Subsections (1) to (4)* shall, with all necessary modifications, apply to an amendment to the levy framework as they apply to the levy framework.
- (c) A levy framework amended or replaced under this subsection shall, unless otherwise specified in the framework, apply to the holders of MACs granted before the framework was amended or replaced as it applies to the holders of MACs granted on or after such amendment or replacement.
- (6) Without prejudice to the generality of *subsection (5)*, the MARA shall not grant a MAC to the applicant for the MAC before the applicant knows the levy or levies that the applicant will be required to pay, under the levy framework as in force on the day that the MARA grants the MAC, to the MARA if the MAC is so granted.

Competitive process

- 93.** (1) The MARA may, with the consent of the Minister for Public Expenditure and Reform, use a competitive process (whether by auction or otherwise) to determine the levy or levies to be paid by the holder of the MAC concerned to the MARA where—
- (a) there are, or are expected to be, two or more MAC applications (whether or not relating to the same part of the maritime area) and the MARA is of the opinion that the grant of one or more than one of those applications would exclude the possibility of granting one or more than one of the other applications,
 - (b) the part of the maritime area concerned is the subject of—
 - (i) a MSP which falls within *section 16(3)(b)*, or
 - (ii) a DMAP,

- as the MARA thinks fit in all the circumstances of the case.
- (3) A competitive process referred to in *subsection (1)* shall be conducted in a manner which is open, transparent, competitive, non-discriminatory and cost effective.

When levy framework applies to MAC

- 94.** Subject to *section 92(5)(c)*, the levy framework that applies to a MAC shall be the levy framework as in force on the day on which the MARA grants the MAC.

CHAPTER 8*Rehabilitation of maritime area and emergency works***Definitions - Chapter 8**

- 95.** In this Chapter and *Schedule 6* —

["planning rehabilitation schedule", in relation to a MAC to which *section 75(5)* applies where the development permission concerned referred to in that section has been granted, means the equivalent in such planning permission to the rehabilitation schedule that was attached to the application for such development permission (and regardless of whether or not such equivalent is a schedule attached to the development permission);]

"rehabilitate", in relation to a part of the maritime area, means—

- (a) a treatment for the part in such a way as to either—

(i) restore the part to a satisfactory state, with particular regard to the seabed, water quality, wildlife, natural habitats, landscape and seascape, or

(ii) restore the part to a satisfactory state to enable it to be reused for the purpose for which it was previously used (and whether or not pursuant to a MAC) or for another purpose and, consistent with such purpose, with particular regard to the seabed, water quality, wildlife, natural habitats, landscape and seascape,

and

(b) after the restoration referred to in *paragraph (a)(i) or (ii)* has been completed and, if appropriate, to maintain, for a period specified in the rehabilitation schedule concerned, the part so that it continues to be in the satisfactory state referred to in that paragraph;

- (6) Where any fee or levy has been paid under this Act that relates to a part of the maritime area that is subsequently shown to have been a relevant part at the time of such payment and which would not have been required to be paid by virtue of that fact, the MARA or the CPA concerned, as appropriate, to whom that fee was paid shall refund the fee or levy to the person who paid it but only to the extent that the fee or levy related to that part.
- (7) Nothing in this section shall be construed to prejudice the application of the Act of 2000 to a proposed maritime usage.
- (8) In this section, “the Land Law Acts ” means the Land Law Acts as defined by the [Land Law \(Commission\) Act 1923](#), together with any subsequent Act which provides that it is construed as one with the Land Law Acts.

- (b) For the purpose of prescribing a requirement referred to in *paragraph (a)*, the Minister shall, in addition to having regard to the other provisions of this Act, also have regard to the principle that scientific information concerning the maritime area ought to be preserved not just for the benefit of the undertaking of the particular maritime usage concerned for the purposes of which such information was acquired but also for the benefit of other and future undertakings of maritime usages.
- (2) (a) The MARA may, by notice in writing given to the holder of a MAC, direct the holder to provide the MARA with copies of any specified data—

CHAPTER 12

Transitional provisions - foreshore authorisations, unauthorised usages and MACs

Transitional provisions for certain foreshore authorisations

105. (1) This section applies to a foreshore authorisation where the maritime usage the subject of the authorisation would, if it were not the subject of the authorisation, have to be, *inter alia*, the subject of a MAC before it could be lawfully undertaken.

(2) (a) *Paragraphs (b) and (c)* apply where the holder of a foreshore authorisation—

(i) is lawfully occupying a part of the foreshore pursuant to the authorisation, and

(ii) wishes to—

(I) amend the authorisation, or

(II) continue to occupy that part after the expiration of the authorisation without undertaking any further maritime usage in addition to the maritime usage the subject of the authorisation.

(b) The holder may, at any time before the expiration of the foreshore authorisation, make a MAC application to surrender the authorisation to the MARA for a MAC and, in any such case, *section 79* and the other provisions of this Part (including *section 84*) shall, with all necessary modifications, apply to the authorisation, the MAC application, and the application’s determination under *section 81*, accordingly.

(c) The foreshore authorisation shall expire—

(i) upon the holder being granted a MAC pursuant to the MAC application referred to in *paragraph (b)*, or

(ii) in accordance with the provisions of the authorisation and the Act of 1933,

whichever first occurs.

(3) (a) *Paragraphs (b) and (c)* apply where—

(i) the holder of a foreshore authorisation—

- (I) is lawfully occupying a part of the foreshore area pursuant to the authorisation, and
 - (II) wishes to discontinue to occupy that part in favour of another person occupying that part,
 - and
 - (ii) the other person wishes to occupy that part without undertaking any further maritime usage in addition to the maritime usage the subject of the authorisation.
- (b) The holder of the foreshore authorisation and the other person may, at any time before the expiration of the authorisation, make a joint MAC application to surrender the authorisation to the MARA for a MAC for the maritime usage the subject of the authorisation and, in any such case, *section 79* and the other provisions of this Part (including *section 84*) shall, with all necessary modifications, apply to the authorisation, the joint MAC application, and the application's determination under *section 81*, accordingly.
- (c) The foreshore authorisation shall expire—
- (i) upon the other person being granted a MAC pursuant to the joint MAC application referred to in *paragraph (b)*, or
 - (ii) in accordance with the provisions of the authorisation and the Act of 1933,
- whichever first occurs.

Transitional provisions for certain unauthorised maritime usages

- 106.** (1) The relevant person may, before the fifth anniversary of the coming into operation of this section (or, where *subsection (4)* applies, the first anniversary referred to in that subsection), make a MAC application for the unauthorised usage concerned and, in any such case, the provisions of this Act shall, with all necessary modifications, apply to take account of the fact that such usage is an existing maritime usage and not a proposed maritime usage.
- (2) *Subsection (3)* applies to the relevant person (including any predecessors to such person) and the unauthorised usage concerned immediately on and after—
- (a) the fifth anniversary of the coming into operation of this section (or, where *subsection (4)* applies, the first anniversary referred to in that subsection) without a MAC application referred to in *subsection (1)* having been made for such usage,
 - (b) the date on which the MARA is satisfied that, although a MAC application referred to in *subsection (1)* has been made for such usage, the application has been abandoned or withdrawn before its determination under *section 81*, or
 - (c) where a MAC application referred to in *subsection (1)* has been made for such usage, the date on which the applicant is notified of the refusal under *section 81*, in the determination of the application, to grant a MAC for such usage.
- (3) (a) Where this subsection applies, the MARA may use, on behalf of the State, any and all remedies available to the State (whether under this Act or another enactment or under the common law) against or in

relation to the relevant person (including any predecessors to such person) and the unauthorised usage concerned including, and without limiting the generality of the foregoing, remedies to provide for all or any of the following:

- (i) cause the unauthorised usage to cease;
 - (ii) obtain compensation or damages for the unauthorised usage;
 - (iii) provide for the rehabilitation of the part of the maritime area the subject of the unauthorised usage.
- (b) The MARA may exercise its power under *paragraph (a)* jointly with one or more than one other public body that has statutory functions in relation to maritime usages of the type that is the unauthorised usage concerned.
- (4) The MARA may, where it is of the opinion that a particular unauthorised usage is an impediment to the effective and efficient performance of its functions, by notice in writing given to the relevant person, and for the reasons stated in the notice, specify that, in the case of that usage, the words “the first anniversary of the giving of the notice concerned under *subsection (4)*” are substituted for the words “the fifth anniversary of the coming into operation of this subsection” in *subsections (1) and (2)(a)*.
- (5) For the avoidance of doubt, it is hereby declared that nothing in this section shall be construed to limit the State or a public body other than the MARA from making use, independently of the MARA, of a remedy referred to in *subsection (3)* against or in relation to the relevant person (including any predecessors thereto) and the unauthorised usage concerned.
- (6) In this section—
- “relevant person”, in relation to an unauthorised usage, means the person undertaking such usage immediately before 12 August 2021, and regardless of whether or not such person is the same person who first undertook such usage;
- “unauthorised usage” means a maritime usage—
- (a) undertaken by a person before 12 August 2021,
 - (b) which, in order to be lawfully undertaken before that date, was required to be, but was not, the subject of a foreshore authorisation, and regardless as to whether or not any other authorisations (whether the authorisation takes the form of the grant of a licence, consent, approval or any other type of authorisation) were required, or were in fact granted, under any other enactment in order to enable the person referred to in *paragraph (a)* to undertake such usage, and
 - (c) which, if it were undertaken on or after the coming into operation of *Chapter 2*, would be required by that Chapter to be the subject of a MAC.

CHAPTER 13

Judicial review and MACs

Judicial review of matters relating to MAC applications or MACs

- 107.** (1) Where a point of law arises on any matter with which the MARA is concerned under this Part, the MARA may refer the point to the High Court for decision.
- (2) A person shall not question the validity of any decision made or other act done by the MARA in the performance or purported performance of a function under this Part in relation to a MAC application, MAC or foreshore authorisation otherwise than by way of an application for judicial review under Order 84.
- (3) The MARA may, at any time after the bringing of an application for leave to apply for judicial review of any decision or other act to which *subsection (2)* applies and which relates to a matter for the time being before the MARA, apply to the High Court to stay the proceedings pending the making of a decision by the MARA in relation to the matter concerned.
- (4) On the making of such an application, the High Court may, where it considers that the matter before the MARA is within the jurisdiction of the MARA, make an order staying the proceedings concerned on such terms as it thinks fit.
- (5) Subject to *subsection (6)*, an application for leave to apply for judicial review under Order 84 in respect of a decision or other act to which *subsection (2)* applies shall be made within the period of eight weeks beginning on the date of the publication of the decision under *section 84* or *89*, as appropriate, or, as the case may be, the date of the doing of the act by the MARA, as appropriate.
- (6) The High Court may extend the period provided for in *subsection (5)* within which an application for leave referred to in that subsection may be made but shall only do so if it is satisfied that—
- (a) there is good and sufficient reason for doing so, and
- (b) the circumstances that resulted in the failure to make the application for leave within the period so provided were outside the control of the applicant for the extension.
- (7) References in this section to Order 84 shall be construed as including references to Order 84 as amended or replaced (with or without modification) by rules of court.

Provisions supplementary to section 107

- 108.** (1) In this section—

“Court”, where used without qualification, means the High Court (but this definition shall not be construed as meaning that *subsections (2) to (6) and (9)* do not extend to and govern the exercise by the Court of Appeal of jurisdiction on any appeal that may be made);

“ *section 107* leave” means leave to apply for judicial review under Order 84 in respect of a decision or other act to which *section 107(2)* applies.

- (2) (a) An application for *section 107* leave shall be made by motion *ex parte* and shall be grounded in the manner specified in Order 84 in respect of an *ex parte* motion for leave.
- (b) The Court hearing the *ex parte* application for leave may decide, having regard to the issues arising, the likely impact of the proceedings on the respondent or another party, or for other good and sufficient reason,

that the application for leave should be conducted on an *inter partes* basis and may adjourn the application on such terms as it may direct in order that a notice may be served on that person.

(c) If the Court directs that the leave hearing is to be conducted on an *inter partes* basis it shall be by motion on notice (grounded in the manner specified in Order 84 in respect of an *ex parte* motion for leave)—

(i) to the MARA, and

(ii) to any other person specified for that purpose by order of the High Court.

(d) The Court may—

(i) on the consent of all of the parties, or

(ii) where there is good and sufficient reason for so doing and it is just and equitable in all the circumstances,

treat the application for leave as if it were the hearing of the application for judicial review and may for that purpose adjourn the hearing on such terms as it may direct.

(3) The Court shall not grant *section 107* leave unless it is satisfied that—

(a) there are substantial grounds for contending that the decision or act concerned is invalid or ought to be quashed, and

(b) the applicant has a sufficient interest in the matter which is the subject of the application.

(4) A sufficient interest for the purposes of *subsection (3)(b)* is not limited to an interest in land or other financial interest.

(5) If the Court grants *section 107* leave, no grounds shall be relied upon in the application for judicial review under Order 84 other than those determined by the Court to be substantial under *subsection (3)(a)*.

(6) The Court may, as a condition for granting *section 107* leave, require the applicant for such leave to give an undertaking as to damages.

(7) The determination of the Court of an application for *section 107* leave or of an application for judicial review on foot of such leave shall be final and no appeal shall lie from the decision of the Court to the Court of Appeal in either case save with leave of the Court which leave shall only be granted where the Court certifies that its decision involves a point of law of exceptional public importance and that it is desirable in the public interest that an appeal should be taken to the Court of Appeal.

(8) *Subsection (7)* shall not apply to a determination of the Court in so far as it involves a question as to the validity of any law having regard to the provisions of the Constitution.

(9) If an application is made for judicial review under Order 84 in respect of part only of a decision or other act to which *section 107(2)* applies, the Court may, if it thinks fit, declare to be invalid or quash the part concerned or any provision thereof without declaring invalid or quashing the remainder of the decision or other act or part of the decision or other act, and if the Court does so, it may make any consequential amendments to the remainder of the decision or other act or the part thereof that it considers appropriate.

(10) The Court shall, in determining an application for *section 107* leave or an application for judicial review on foot of such leave, act as expeditiously as possible consistent with the administration of justice.

- (11) On an appeal from a determination of the Court in respect of an application referred to in *subsection (10)*, the Court of Appeal shall—
 - (a) have jurisdiction to determine only the point of law certified by the Court under *subsection (7)* (and to make only such order in the proceedings as follows from such determination), and
 - (b) in determining the appeal, act as expeditiously as possible consistent with the administration of justice.
- (12) Rules of court may make provision for the expeditious hearing of applications for *section 107* leave and applications for judicial review on foot of such leave.

Judicial review does not prevent applications for development permission

- 109.** (1) *Subsection (2)* applies in the case of the holder of a MAC for a proposed maritime usage in a part of the maritime area where such usage requires development permission.
- (2) Neither—
- (a) an application to the High Court for the grant of leave for judicial review under Order 84 of the decision of the MARA to grant the MAC, nor
 - (b) an application to the High Court for judicial review of such decision on foot of such leave granted,
- shall be construed to prevent an application for such development permission being made or determined, or otherwise being dealt with, under the Act of 2000.

PART 5

LICENCES AUTHORISING CERTAIN MARITIME USAGES IN MARITIME AREA

CHAPTER 1

Interpretation, application and competent authority

Interpretation - Part 5

- 110.** (1) In this Part and *Schedules 7* and *8* —
- “exempted usage” shall be construed in accordance with *section 114*;
 - “*Schedule 7* usage” means a maritime usage specified in *Schedule 7*.
- (2) In *sections 124, 126* and *127*, “licence” includes part of a licence.

Application

- 111.** (1) A licence shall not be granted for a *Schedule 7* usage that requires an environmental impact statement.
- (2) Neither a prohibitory order made under section 6 of the Act of 1933 nor a prohibitory notice made under section 7 of that Act (whether made before or after the coming into operation of this section) shall operate to prevent a licence being granted for a *Schedule 7* usage which falls within *paragraph*

12 of *Schedule 7* and is to be undertaken in a part of the maritime area the subject of such order or notice.

Competent authority

112. The MARA shall, for the purposes of this Part, be the competent authority for the purposes of Part 5 of the European Communities (Birds and Natural Habitats) Regulations 2011 (*S.I. No. 477 of 2011*) and appropriate assessments to which that Part applies.

CHAPTER 2

Grant or refusal of licence and related matters

Prohibition against undertaking certain maritime usages in maritime area without licence

113. (1) A person shall not undertake a *Schedule 7* usage (other than an exempted usage) in any part of the maritime area unless he or she is, in respect of that part, the holder of a licence for such usage.

(2) Subject to *subsection (3)*, the Minister may by regulations specify, for the purposes of *paragraph 14* of *Schedule 7*, a maritime usage (not being a maritime usage which requires development permission) where the Minister is satisfied that such usage—

(a) would, if undertaken, have one or more than one of the following apply:

- (i) be for, or occur over, a limited and ascertainable period;
- (ii) be a usage that is required to be undertaken for the purposes of a condition attached to a MAC by virtue of *section 82*;
- (iii) be investigative in nature or for the purposes of discovery;
- (iv) be limited in scale;
- (v) have a limited impact on the maritime area;
- (vi) not require authorisation by or under any other enactment (whether the authorisation takes the form of a licence, consent, approval or any other type of authorisation),

and

(b) could effectively be regulated by the application of the provisions of this Part to the usage.

(3) On and after the establishment day, the Minister shall not make regulations under *subsection (2)* except after consultation with the MARA.

Exempted usage

114. (1) (a) Subject to *subsections (2) and (4)*, the Minister may by regulations provide for any class of *Schedule 7* usage to be exempted usage for the purposes of this Part where he or she is of the opinion that—

- (i) by reason of the size, nature or limited effect on the maritime area, of usages belonging to that class, the undertaking of such usages without a licence would not offend against the objectives listed in Article 5 of the MSP Directive, or

- (ii) usages belonging to that class are authorised, or are required to be authorised, by or under any other enactment (whether the authorisation takes the form of the grant of a licence, consent, approval or any other type of authorisation).
- (b) Regulations made under *paragraph (a)* may be subject to conditions and be of general application or apply to such part of the maritime area as may be specified in the regulations.
- (c) Regulations made under *paragraph (a)* shall be the subject of screening for the purposes of—
 - (i) the Habitats Directive, and
 - (ii) Directive 2001/42/EC of the European Parliament and of the Council of 27 June 2001¹² on the assessment of the effects of certain plans and programmes on the environment.
- (2) Notwithstanding any regulations made under *subsection (1)* but subject to *subsection (3)*, any particular *Schedule 7* usage shall not be exempted usage if an appropriate assessment or environmental impact assessment of the usage is required.
- (3) *Subsection (2)* shall not apply to a *Schedule 7* usage referred to in *subsection (1)(a)(ii)* where the enactment concerned referred to in *subsection (1)(a)(ii)* provides for appropriate assessment or environmental impact assessment, as appropriate, of the usage.
- (4) On and after the establishment day, the Minister shall not make regulations under *subsection (1)* except after consultation with the MARA.

Application for declaration as to whether or not licence is required, etc.

- 115.** (1) A person may make an application in the specified form, accompanied by the specified fee, to the MARA for a declaration in writing by the MARA as to whether or not the maritime usage the subject of the application is a *Schedule 7* usage and, if so, whether or not the undertaking of the *Schedule 7* usage requires a licence.
- (2) Where an application under *subsection (1)* is made to the MARA, it may, by notice in writing given to the applicant, require the applicant to provide, whether in the specified form, by affidavit or otherwise, such additional information in relation to any matters to which the application relates as the MARA reasonably considers necessary to make the declaration sought by the application.
- (3) The MARA shall, to the extent that it is practicable to do so, make the declaration sought by an application under *subsection (1)*, and give a copy of the declaration to the applicant, not later than 30 days after the day on which the MARA is satisfied that the applicant has complied with all of the requirements of or under this section.

Fees for licences

- 116.** (1) Subject to *subsections (2)* and *(6)*, the Minister may by regulations specify the fees to be paid to the MARA for relevant applications and, for that purpose—
- (a) different amounts may be specified for such applications which fall within different classes of such applications specified in the regulations, and

¹² OJ No. L197, 21.7.2001, p. 30

- (b) the regulations may specify the circumstances in which—
 - (i) an exemption from the payment of such a fee applies, or
 - (ii) a waiver, remission or refund (whether in whole or in part) of such fee applies.
- (2) The Minister shall, when specifying, in regulations made under *subsection (1)*, the fees to be paid to the MARA for relevant applications, have regard to the administrative costs associated with processing applications, including the costs of determining whether the requirements for making the relevant applications have been met.
- (3) Subject to *subsections (4) to (6)*, the Minister may by regulations specify the fee or fees to be paid to the MARA by holders of licences and, for that purpose—
 - (a) different amounts may be prescribed for such holders which fall within different classes of such holders specified in the regulations, and
 - (b) the regulations may specify the circumstances in which—
 - (i) an exemption from the payment of such a fee applies, or
 - (ii) a waiver, remission or refund (whether in whole or in part) of such a fee applies.

Application for grant of licence

- 117.** (1) Subject to regulations made under *section 118*, a person may make an application in the specified form, accompanied by the specified fee, to the MARA for the grant of a licence for the *Schedule 7* usage the subject of the application.

- (2) Without prejudice to the generality of *section 72* or *subsection (3)*, a licence application may require any information to be provided in relation to any of the matters to which this Part relates.
- (3) Subject to *subsection (9)*, where a licence application is made to the MARA, the MARA may, by notice in writing given to the applicant, require the applicant to provide in the specified form, by affidavit or otherwise, such additional information in relation to any matter to which the application relates as the MARA reasonably considers necessary to assist it to determine the application under *section 119*.
- (4) (a) The MARA shall, as soon as is practicable after it receives a licence application and if it considers it necessary to do so in its capacity as the competent authority referred to in *section 112*, carry out screening for appropriate assessment in respect of the proposed maritime usage the subject of the application.
- (b) *Paragraph (a)* applies notwithstanding that the applicant may have submitted a Natura impact statement to the MARA, whether with the licence application or subsequently.
- (5) (a) The MARA shall, as soon as is practicable after it receives a licence application, carry out screening for environmental impact assessment in respect of the proposed maritime usage the subject of the application if it considers that it is necessary to do so after having regard to Schedules 5 and 7 to the Planning and Development Regulations 2001 (*S.I. No. 600 of 2001*).
- (b) Where the decision on the screening referred to in *paragraph (a)* is that an environmental impact assessment is required, the MARA shall, as soon as is practicable—
- (i) return the licence application concerned to the applicant together with a copy of *section 111*, and
- (ii) publish its decision on its website together with its reasons for such decision and a notice stating—
- (I) that a person may question the validity of the decision by way of an application for judicial review under Order 84 in accordance with *Chapter 8*, and
- (II) where practical information on the review mechanism can be obtained.
- (6) Where the decision referred to in *subsection (4)(a)* is that an appropriate assessment is required, the MARA shall—
- (a) subject to *paragraph (b)* and *subsection (8)*, by notice in writing given to the applicant, require the applicant to prepare, within the period specified in the notice (being a period reasonable in all the circumstances of the case), a Natura impact statement and submit it to the MARA,
- (b) subject to *subsection (9)*, as soon as is practicable after the MARA has the Natura impact statement prepared by the applicant pursuant to *paragraph (a)* or, as the case may be, the MARA is satisfied with the adequacy of a Natura impact statement submitted by the applicant together with the licence application concerned, by notice in writing given to the applicant, require the applicant to give notice (in this section referred to as the “relevant notice”) in the specified form to the public stating that—
- (i) the licence application concerned has been made to the MARA, a related Natura impact statement has been submitted to the MARA

and that the application and statement are available for inspection during the period concerned referred to in *subparagraph (ii)* —

(I) on the website of the MARA, and

(II) at the offices of the MARA specified in the relevant notice,

and

(ii) members of the public may make submissions in writing on the licence application and the Natura impact statement to the MARA for a period of not less than 30 days from the date of publication of the relevant notice at a location (which may be an electronic address) specified in, or in a form set out in and sent to an address specified in, the relevant notice.

(7) (a) The MARA shall, as soon as is practicable after the expiration of the 30 days referred to in *subsection (6)(b)(ii)*, carry out the appropriate assessment concerned and have regard to the submissions (if any) referred to in that subsection.

(b) The MARA shall comply with the determination of the appropriate assessment when determining the licence application concerned under *section 120*.

(8) Where the applicant fails to comply with *subsection (6)(a)* within the period specified in that subsection (or any extension to that period permitted by the MARA for good and sufficient reason), the licence application concerned shall be deemed to have been withdrawn.

(9) Where *subsection (6)* applies to the applicant, the MARA shall not—

(a) give the notice first-mentioned in *subsection (6)(b)* to the applicant until the applicant has complied with each notice (if any) given to the applicant under *subsection (3)*, and

(b) exercise its power under *subsection (3)* in respect of the applicant at any time after the commencement of the period concerned referred to in *subsection (6)(b)(ii)*.

(10) In this section, “Natura impact statement” has the same meaning as it has in Regulation 2 of the European Communities (Birds and Natural Habitats) Regulations 2011 (*S.I. No. 477 of 2011*).

Provisions supplementary to *section 117*

118. (1) Without prejudice to the generality of *sections 72* and *117(2), (3)* and *(6)* and subject to *subsections (2)* and *(3)*, the Minister may by regulations specify the nature and extent of the consultation that the applicants which fall within different classes of licence applications specified in the regulations need to carry out before making such applications.

(2) In making regulations under *subsection (1)*, the Minister shall, in addition to having regard to the other provisions of this Act, also have regard to the principle that the nature and extent of the consultation referred to in *subsection (1)* needs to be proportionate to the nature and extent of the *Schedule 7* usage the subject of the licence application concerned.

(3) On and after the establishment day, the Minister shall not make regulations under *subsection (1)* except after consultation with the MARA.

Grant or refusal of licence

119. (1) Subject to *section 117*(2), (3) and (7) and *subsections* (2) and (4) to (7), the MARA shall determine a licence application by—

(a) granting a licence to the applicant for the occupation of a specific part of the maritime area for the purposes of the proposed *Schedule 7* usage the subject of the application and subject to such conditions (if any) attached to the licence by virtue of *section 120*(1) as the MARA thinks fit, or

(b) giving notice in writing to the applicant refusing to grant a licence.

(2) The MARA shall, to the extent that is practicable to do so, determine a licence application not later than 30 days after the day on which the MARA is satisfied that the applicant has complied with all the requirements of or under this Part in so far as they relate to the application.

(3) Where the MARA—

(a) grants a licence for part only of the *Schedule 7* usage sought by the applicant (including any case where the part of the maritime area concerned is reduced in size),

(b) grants a licence to which conditions are attached by virtue of *section 120*(1), or

(c) refuses to grant a licence,

the MARA shall, at the same time, give the applicant notice in writing of the reasons for the partial grant, conditions or refusal, as the case may be.

(4) A licence shall include the following at a minimum:

(a) particulars of the name and address of the holder of the licence;

(b) particulars of the *Schedule 7* usage the subject of the licence and the part of the maritime area where the usage will be undertaken;

(d) the conditions (if any) attached to the licence by virtue of *section 120*(1).

(5) The MARA shall, in determining a licence application, take into account any submissions referred to in *section 117*(6)(b)(ii).

(6) (a) *Paragraph (b)* applies where the MARA is minded to determine a licence application by—

(i) granting a licence to the applicant but—

(I) for part only of the licence sought by the applicant (including any case where the part of the maritime area concerned is reduced in size), or

(II) with conditions attached to the licence by virtue of *section 120*(1),

or

(ii) refusing to grant a licence.

(b) The MARA shall, in the interests of procedural fairness, give a notice in writing to the applicant stating that—

- (i) the MARA is minded to determine the application as specified in *paragraph (a)* and setting out the MARA's reasons why it is so minded, and
 - (ii) the applicant may, if the applicant wishes to do so, within the period specified in the notice (being a period reasonable in all the circumstances of the case), provide, in view of those reasons only, supplementary material in the specified form to the MARA for the MARA's further consideration before making a determination under *subsection (1)* following the expiration of that period.
- (7) For the avoidance of doubt, it is hereby declared that *subsection (6)* only applies once to the same licence application.

Conditions attached to licence

- 120.** (1) The MARA may attach to a licence one or more than one condition which falls within one or more than one of the types of conditions specified in *Schedule 8*.
- (2) Subject to *subsections (3) and (8)*, the Minister may by regulations specify, for the purposes of *paragraph 18* of *Schedule 8*, additional types of conditions which may be attached to a licence.
- (3) Where the Minister makes regulations under *subsection (2)*, he or she shall, in addition to having regard to the other provisions of this Act, have regard to the following principles and policies in relation to the additional types of conditions:
- (a) whether the condition assists in the furtherance of the objectives of the National Marine Planning Framework;
 - (b) whether the condition assists in promoting co-operation between users of the same part of the maritime area or adjoining parts of the maritime area, or both;
 - (c) whether the condition assists in ensuring that the holder of a licence—
 - (i) fulfils his or her obligations under this Act in relation to the licence, or
 - (ii) manages the undertaking of the maritime usage the subject of the licence in an effective and efficient manner.
- (4) (a) Subject to *subsection (5)*, it shall be deemed to be a condition of each licence that the MARA may, where it is of the opinion that the revocation, suspension or amendment of the licence is required in order to enable a MAC granted after the grant of the licence to have full force and effect, provide for such revocation, suspension or amendment, as the case may be, in the MAC and subject to such conditions (if any) as are specified in the MAC.
- (b) The MARA shall, at the same time as it grants a MAC to which *paragraph (a)* applies, give the holder of the licence concerned a copy of the MAC together with a statement in writing specifying the MARA's reasons for the potential revocation, suspension or amendment, as the case may be, of the licence.
- (5) (a) *Paragraph (b)* applies where the MARA is minded to exercise its discretion referred to in *subsection (4)(a)* to revoke, suspend or amend a licence.

- (b) The MARA shall, in the interests of procedural fairness, give a notice in writing to the holder of the licence concerned stating—
- (i) how the MARA is minded to exercise its discretion referred to in *subsection (4)(a)* and setting out the MARA's reasons why it is so minded, and
 - (ii) that the holder may, if the holder wishes to do so, within the period specified in the notice (being a period reasonable in all the circumstances of the case), provide, in view of those reasons only, supplementary material in the specified form to the MARA for the MARA's further consideration before the MARA, following the expiration of that period, makes a decision whether or not to exercise the discretion referred to in *subsection (4)(a)* and, if so, how to exercise such discretion.
- (6) Where the MARA decides to exercise its discretion referred to in *subsection (4)(a)* to revoke, suspend or amend a licence, the MARA shall give notice in writing of the decision to the holder of the licence and such decision shall not take effect until at least 30 days after the holder receives that notice.
- (7) It shall be deemed to be a condition of each licence that the part of the maritime area the subject of the licence is not for the exclusive use of the *Schedule 7* usage the subject of the licence except where the licence expressly states that such part is for the exclusive use of such usage.
- (8) On and after the establishment day, the Minister shall not make regulations under *subsection (2)* except after consultation with the MARA.

- (9) In this section—
- “commercially sensitive information” means—
- (a) financial, commercial, scientific, technical or other information the disclosure of which could reasonably be expected to result in a material financial loss or gain to the person to whom it relates, or could prejudice the competitive position of that person in the conduct of his or her business or otherwise in his or her occupation, or

Transitional provisions - foreshore authorisations, unauthorised usages and licences

Transitional provisions for certain foreshore authorisations

129. (1) This section applies to a foreshore authorisation where the maritime usage the subject of the authorisation would, if it were not the subject of the authorisation, have to be, *inter alia*, the subject of a licence before it could be lawfully undertaken.

(2) (a) *Paragraphs (b) and (c)* apply where the holder of a foreshore authorisation—

(i) is lawfully occupying a part of the foreshore pursuant to the authorisation, and

(ii) wishes to—

(I) amend the authorisation, or

(II) continue to occupy that part after the expiration of the authorisation without undertaking any further maritime usage in addition to the maritime usage the subject of the authorisation.

(b) The holder may, at any time before the expiration of the foreshore authorisation, make a licence application to surrender the authorisation to the MARA for a licence and, in any such case, [section 117](#) and the other provisions of this Part (including [section 122](#)) shall, with all necessary modifications, apply to the authorisation, the licence application, and the application's determination under [section 119](#), accordingly.

(c) The foreshore authorisation shall expire—

(i) upon the holder being granted a licence pursuant to the licence application referred to in *paragraph (b)*, or

(ii) in accordance with the provisions of the authorisation and the Act of 1933,

whichever first occurs.

(3) (a) *Paragraphs (b) and (c)* apply where—

(i) the holder of a foreshore authorisation—

(I) is lawfully occupying a part of the foreshore pursuant to the authorisation, and

(II) wishes to discontinue to occupy that part in favour of another person occupying that part,

and

(ii) the other person wishes to occupy that part without undertaking any further maritime usage in addition to the maritime usage the subject of the authorisation.

(b) The holder of the foreshore authorisation and the other person may, at any time before the expiration of the authorisation, make a joint licence application to surrender the authorisation for a licence for the maritime usage the subject of the authorisation and, in any such case, [section 117](#) and the other provisions of this Part (including [section 122](#)) shall, with all necessary modifications, apply to the authorisation, the

joint licence application, and the application's determination under *section 119*, accordingly.

(c) The foreshore authorisation shall expire—

- (i) upon the other person being granted a licence pursuant to the joint licence application referred to in *paragraph (b)*, or
- (ii) in accordance with the provisions of the authorisation and the Act of 1933,

whichever first occurs.

Transitional provisions for certain unauthorised maritime usages

130. (1) The relevant person may, before the fifth anniversary of the coming into operation of this section (or, where *subsection (4)* applies, the first anniversary referred to in that subsection), make a licence application for the unauthorised usage concerned and, in any such case, the provisions of this Act shall, with all necessary modifications, apply to take account of the fact that such usage is an existing maritime usage and not a proposed maritime usage.

(2) *Subsection (3)* applies to the relevant person (including any predecessors to such person) and the unauthorised usage concerned immediately on and after—

- (a) the fifth anniversary of the coming into operation of this section (or, where *subsection (4)* applies, the first anniversary referred to in that subsection) without a licence application referred to in *subsection (1)* having been made in respect of such usage,
- (b) the date on which the MARA is satisfied that, although a licence application referred to in *subsection (1)* has been made for such usage, the application has been abandoned or withdrawn before its determination under *section 119*, or
- (c) where a licence application referred to in *subsection (1)* has been made for such usage, the date on which the applicant is notified of the refusal under *section 119*, in the determination of the application, to grant a licence for such usage.

(3) (a) Where this subsection applies, the MARA may use, on behalf of the State, any and all remedies available to the State (whether under this Act or another enactment or under the common law) against or in relation to the relevant person (including any predecessors to such person) and the unauthorised usage concerned including, and without limiting the generality of the foregoing, remedies to provide for all or any of the following:

- (i) cause the unauthorised usage to cease;
- (ii) obtain compensation or damages for the unauthorised usage;
- (iii) provide for the rehabilitation of the part of the maritime area the subject of the unauthorised usage.

(b) The MARA may exercise its power under *paragraph (a)* jointly with one or more than one other public body that has statutory functions in relation to maritime usages of the type that is the unauthorised usage concerned.

(4) The MARA may, where it is of the opinion that a particular unauthorised usage is an impediment to the effective and efficient performance of its

functions, by notice in writing given to the relevant person and for the reasons stated in the notice, specify that, in the case of that usage, the words “the first anniversary of the giving of the notice concerned under *subsection (4)*” are substituted for the words “the fifth anniversary of the coming into operation of this subsection” in *subsections (1)* and *(2)(a)*.

(5) For the avoidance of doubt, it is hereby declared that nothing in this section shall be construed to limit the State or a public body other than the MARA from making use, independently of the MARA, of a remedy referred to in *subsection (3)* against or in relation to the relevant person (including any predecessors thereto) and the unauthorised usage concerned.

(6) In this section—

“relevant person”, in relation to an unauthorised usage, means the person undertaking such usage immediately before 12 August 2021, and regardless of whether or not such person is the same person who first undertook such usage;

“unauthorised usage” means a maritime usage—

(a) undertaken by a person before 12 August 2021,

(b) which, in order to be lawfully undertaken before that date, was required to be, but was not, the subject of a foreshore authorisation, and regardless as to whether or not any other authorisations (whether the authorisation takes the form of the grant of a licence, consent, approval or any other type of authorisation) were required, or were in fact granted, under any other enactment in order to enable the person referred to in *paragraph (a)* to undertake such usage, and

(c) which, if it were undertaken on or after the coming into operation of *Chapter 2*, would be required by that Chapter to be the subject of a licence.

CHAPTER 8

Judicial review and licences

Judicial review of matters relating to licence applications or licences

131. (1) Where a point of law arises on any matter with which the MARA is concerned under this Part, the MARA may refer the F34[point] to the High Court for decision.

(2) A person shall not question the validity of any decision made or other act done by the MARA in the performance or purported performance of a function under this Part in relation to a licence application, licence or foreshore authorisation otherwise than by way of an application for judicial review under Order 84.

(3) The MARA may, at any time after the bringing of an application for leave to apply for judicial review of any decision or other act to which *subsection (2)* applies and which relates to a matter for the time being before the MARA, apply to the High Court to stay the proceedings pending the making of a decision by the MARA in relation to the matter concerned.

(4) On the making of such an application, the High Court may, where it considers that the matter before the MARA is within the jurisdiction of the MARA, make an order staying the proceedings concerned on such terms as it thinks fit.

- (5) Subject to *subsection (6)*, an application for leave to apply for judicial review under Order 84 in respect of a decision or other act to which *subsection (2)* applies shall be made within the period of eight weeks beginning on the date of the publication of the decision under *section 122* or *127*, as appropriate, or, as the case may be, the date of the doing of the act by the MARA, as appropriate.
- (6) The High Court may extend the period provided for in *subsection (5)* within which an application for leave referred to in that subsection may be made but shall only do so if it is satisfied that—
- (a) there is good and sufficient reason for doing so, and
 - (b) the circumstances that resulted in the failure to make the application for leave within the period so provided were outside the control of the applicant for the extension.
- (7) References in this section to Order 84 shall be construed as including references to the Order as amended or replaced (with or without modification) by rules of court.

Annotations**Amendments:**

- F34** Substituted (17.07.2023) by *Planning and Development, Maritime and Valuation (Amendment) Act 2022* (29/2022), s. 54, S.I. No. 370 of 2023.

Provisions supplementary to section 131**132. (1)** In this section—

“Court”, where used without qualification, means the High Court (but this definition shall not be construed as meaning that *subsections (2) to (6) and (9)* do not extend to and govern the exercise by the Court of Appeal of jurisdiction on any appeal that may be made);

“*section 131* leave” means leave to apply for judicial review under Order 84 in respect of a decision or other act to which *section 131(2)* applies.

- (2) (a) An application for *section 131* leave shall be made by motion *ex parte* and shall be grounded in the manner specified in Order 84 in respect of an *ex parte* motion for leave.
- (b) The Court hearing the *ex parte* application for leave may decide, having regard to the issues arising, the likely impact of the proceedings on the respondent or another party, or for other good and sufficient reason, that the application for leave should be conducted on an *inter partes* basis and may adjourn the application on such terms as it may direct in order that a notice may be served on that person.
- (c) If the Court directs that the leave hearing is to be conducted on an *inter partes* basis it shall be by motion on notice (grounded in the manner specified in Order 84 in respect of an *ex parte* motion for leave)—
- (i) to the MARA, and
 - (ii) to any other person specified for that purpose by order of the High Court.
- (d) The Court may—

(i) on the consent of all of the parties, or

(ii) where there is good and sufficient reason for so doing and it is just and equitable in all the circumstances,

treat the application for leave as if it were the hearing of the application for judicial review and may for that purpose adjourn the hearing on such terms as it may direct.

(3) The Court shall not grant *section 131* leave unless it is satisfied that—

(a) there are substantial grounds for contending that the decision or act concerned is invalid or ought to be quashed, and

(b) (i) the applicant has a sufficient interest in the matter which is the subject of the application, or

(ii) where the decision or act concerned relates to a development identified in or under regulations made under section 176 of the Act of 2000, for the time being in force, as being a development which may have significant effects on the environment, the applicant—

(I) is a body or organisation (other than a State authority, a public authority or governmental body or agency) the aims or objectives of which relate to the promotion of environmental protection, and

(II) has, during the period of 12 months preceding the date of the application, pursued those aims or objectives.

(4) A sufficient interest for the purposes of *subsection (3)(b)(i)* is not limited to an interest in land or other financial interest.

(5) If the Court grants *section 131* leave, no grounds shall be relied upon in the application for judicial review under Order 84 other than those determined by the Court to be substantial under *subsection (3)(a)*.

(6) The Court may, as a condition for granting *section 131* leave, require the applicant for such leave to give an undertaking as to damages.

(7) The determination of the Court of an application for *section 131* leave or of an application for judicial review on foot of such leave shall be final and no appeal shall lie from the decision of the Court to the Court of Appeal in either case save with leave of the Court which leave shall only be granted where the Court certifies that its decision involves a point of law of exceptional public importance and that it is desirable in the public interest that an appeal should be taken to the Court of Appeal.

(8) *Subsection (7)* shall not apply to a determination of the Court in so far as it involves a question as to the validity of any law having regard to the provisions of the Constitution.

(9) If an application is made for judicial review under Order 84 in respect of part only of a decision or other act to which *section 131(2)* applies, the Court may, if it thinks fit, declare to be invalid or quash the part concerned or any provision thereof without declaring invalid or quashing the remainder of the decision or other act or part of the decision or other act, and if the Court does so, it may make any consequential amendments to the remainder of the decision or other act or the part thereof that it considers appropriate.

(10) The Court shall, in determining an application for *section 131* leave or an application for judicial review on foot of such leave, act as expeditiously as possible consistent with the administration of justice.

- (11) On an appeal from a determination of the Court in respect of an application referred to in *subsection (10)*, the Court of Appeal shall—
- (a) have jurisdiction to determine only the point of law certified by the Court under *subsection (7)* (and to make only such order in the proceedings as follows from such determination), and
 - (b) in determining the appeal, act as expeditiously as possible consistent with the administration of justice.
- (12) Rules of court may make provision for the expeditious hearing of applications for *section 131* leave and applications for judicial review on foot of such leave.

- 133.** (1) This section applies to proceedings of the following kinds:

- (3) The costs of proceedings, or a portion of such costs, as are appropriate, may be awarded to the applicant to the extent that the applicant succeeds in obtaining relief and any of those costs shall be borne by the respondent or notice party, or both of them, to the extent that the actions or omissions of the respondent or notice party, or both of them, contributed to the applicant obtaining relief.
- (4) The Court may award costs against a party in proceedings to which this section applies if the Court considers it appropriate to do so—
- (a) because the Court considers that a claim or counterclaim by the party is frivolous or vexatious,
 - (b) because of the manner in which the party has conducted the proceedings, or
 - (c) where the party is in contempt of the Court.
- (5) *Subsection (2)* does not affect the Court's entitlement to award costs in favour of a party in a matter of exceptional public importance and where

in the special circumstances of the case it is in the interests of justice to do so.

(6) In this section a reference to “the Court” shall be construed as, in relation to particular proceedings to which this section applies, a reference to the High Court or the Supreme Court, as may be appropriate.

(7) In this section, “relevant provision” means a provision of—

CHAPTER 3

Enforcement notices

Circuit Court’s jurisdiction under this Chapter

140. (1) Subject to *subsection (2)*, the Circuit Court shall have jurisdiction to hear and determine proceedings under this Chapter in relation to an enforcement notice given to a holder.

(2) (a) Subject to *paragraph (b)*, the Circuit Court for the purposes of *subsection (1)* shall be the Circuit Court for that circuit in which the holder the subject of the enforcement notice concerned resides or ordinarily carries on any profession, business or occupation.

(b) Where the holder the subject of the enforcement notice concerned—

- (i) does not reside or ordinarily carry on any profession, business or occupation in the State, or
- (ii) resides or ordinarily carries on any profession, business or occupation in the maritime area,

the Circuit Court for the purposes of *subsection (1)* shall be the Circuit Court for the Dublin Circuit.

Issue of enforcement notices

141. (1) *Subsection (2)* applies where the MARA is of the opinion (in this section referred to as the “relevant opinion”) that a relevant ground applies to a holder.

(2) Without prejudice to the generality of the other provisions of this Part and subject to *subsection (3)*, the MARA may give the holder a notice in writing, accompanied by a copy of this Chapter—

- (a) stating the relevant opinion,

- (b) specifying the relevant ground as to why it is of that opinion and the reasons why it is of that opinion,
 - (c) directing the holder to take such steps as are specified in the notice to remedy the relevant ground or, as the case may be, the matters occasioning it, and
 - (d) specifying a period (ending not earlier than the period specified in *section 142(1)* within which an application under that section to cancel a direction specified in the notice may be made) within which those steps must be taken.
- (3) The MARA shall not give the holder an enforcement notice unless, in the interests of procedural fairness, the MARA has first—
- (a) given the holder a notice in writing stating the nature of the enforcement notice that the MARA is minded to give to the holder and the reasons why the MARA is so minded,
 - (b) given the holder a reasonable opportunity, in the circumstances concerned, to make representations in writing to the MARA on what is stated in the notice referred to in *paragraph (a)*, and
 - (c) had regard to the representations (if any) referred to in *paragraph (b)* made to the MARA.
- (4) The steps specified in an enforcement notice to remedy any relevant ground to which the notice relates may be framed so as to afford the holder a choice between different ways of remedying the relevant ground.
- (5) Where the holder to whom an enforcement notice has been given makes an application under *section 142(1)* to cancel a direction specified in the notice, the steps specified in the notice, in so far as they relate to that direction, need not be taken by the holder pending the determination, withdrawal or abandonment of the application.
- (6) The MARA may cancel an enforcement notice by notice in writing given to the holder.
- (7) Where the holder fails to take the steps specified in an enforcement notice given to him or her, the MARA may, on notice to the holder, apply in a summary manner to the Circuit Court for an order requiring the holder to take those steps (or to take such varied or other steps for the like purpose as may be specified in the order), and the Circuit Court—
- (a) may—
 - (i) make the order sought,
 - (ii) make the order sought subject to such variations to those steps as may be specified in the order, or
 - (iii) make the order sought subject to such other steps for the like purpose as may be specified in the order,
 - or
 - (b) may dismiss the application,
- and, whether *paragraph (a)* or *(b)* is applicable, may make such order as to costs as it thinks fit in respect of the application.
- (8) For the avoidance of doubt, it is hereby declared that the giving of an enforcement notice to the holder does not relieve the holder of—

(a) any duty, obligation or responsibility under another provision of this Act or another enactment that relates to, or

(b) any liability arising from,

the relevant ground to which the notice relates.

Application for cancellation of direction specified in enforcement notice, etc.

142. (1) The holder to whom an enforcement notice has been given may, on notice to the MARA, not later than 30 days after being given the notice, apply to the Circuit Court for the cancellation of any direction specified in the notice and, on such an application, the Circuit Court may—

(a) cancel the direction,

(b) confirm the direction, or

(c) vary the direction,

and, whether *paragraph (a), (b) or (c)* is applicable, make such order as to costs as it thinks fit in respect of the application.

(2) The decision of the Circuit Court on a direction specified in an enforcement notice shall be final save that, by leave of the High Court, an appeal by the holder, or the MARA, as the case may be, from the decision shall lie to the High Court on a point of law.

Rules of court

143. Rules of court may make provision for the expedition of the hearing of proceedings under this Chapter.

(i) impose a minor sanction on the holder, or

(ii) impose a major sanction on the holder,

as it thinks fit in all the circumstances of the case, or

- (5) The MARA shall, as soon as is practicable after making a decision under *subsection (4)*, give notice in writing of the decision and the reasons for the decision to the holder the subject of the investigation concerned and, if *subsection (4)(a)* applies in the case of that holder, set out in that notice—

SCHEDULE 1

Maritime Spatial Planning Directive

*Section 2***DIRECTIVE 2014/89/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
of 23 July 2014****establishing a framework for maritime spatial planning**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Articles 43(2), 100(2), 192(1), and 194(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee⁽¹⁾,

Having regard to the opinion of the Committee of the Regions⁽²⁾,

Acting in accordance with the ordinary legislative procedure⁽³⁾,

Whereas:

- (1) The high and rapidly increasing demand for maritime space for different purposes, such as installations for the production of energy from renewable sources, oil and gas exploration and exploitation, maritime shipping and fishing activities, ecosystem and biodiversity conservation, the extraction of raw materials, tourism, aquaculture installations and underwater cultural heritage, as well as the multiple pressures on coastal resources, require an integrated planning and management approach.
- (2) Such an approach to ocean management and maritime governance has been developed in the Integrated Maritime Policy for the European Union ('IMP'), including, as its environmental pillar, Directive 2008/56/EC of the European Parliament and of the Council⁽⁴⁾. The objective of the IMP is to support the sustainable development of seas and oceans and to develop coordinated, coherent and transparent decision-making in relation to the Union's sectoral policies affecting the oceans, seas, islands, coastal and outermost regions and maritime sectors, including through sea-basin strategies or macro-regional strategies, whilst achieving good environmental status as set out in Directive 2008/56/EC.
- (3) The IMP identifies maritime spatial planning as a cross-cutting policy tool enabling public authorities and stakeholders to apply a coordinated, integrated and trans-boundary approach. The application of an ecosystem-based approach will contribute to promoting the sustainable development and growth of the maritime and coastal economies and the sustainable use of marine and coastal resources.
- (4) Maritime spatial planning supports and facilitates the implementation of the Europe 2020 Strategy for smart, sustainable and inclusive growth ('the Europe 2020 Strategy'), endorsed by the European Council in its conclusions of 17 June

¹ OJ C 341, 21.11.2013, p. 67.

² OJ C 356, 5.12.2013, p. 124.

³ Position of the European Parliament of 17 April 2014 (not yet published in the Official Journal) and decision of the Council of 23 July 2014.

⁴ Directive 2008/56/EC of the European Parliament and of the Council of 17 June 2008 establishing a framework for Community action in the field of marine environmental policy (Marine Strategy Framework Directive) (OJ L 164, 25.6.2008, p. 19).

2010, which aims to deliver high levels of employment, productivity and social cohesion, including promotion of a more competitive, resource-efficient and green economy. The coastal and maritime sectors have significant potential for sustainable growth and are keys to the implementation of the Europe 2020 Strategy.

- (5) In its communication entitled 'Blue Growth: opportunities for marine and maritime sustainable growth', the Commission has identified a number of ongoing Union initiatives which are intended to implement the Europe 2020 Strategy, as well as a number of activities on which blue growth initiatives could focus in the future and which could be adequately supported by greater confidence and certainty for investors provided through maritime spatial planning.
- (6) Regulation (EU) No 1255/2011 of the European Parliament and of the Council⁽⁵⁾ supported and facilitated the implementation of maritime spatial planning and integrated coastal management. European Structural and Investment Funds, including the European Maritime and Fisheries Fund⁽⁶⁾, will provide opportunities to support the implementation of this Directive for 2014-2020.
- (7) The United Nations Convention on the Law of the Sea of 1982 ('Unclos') states in its preamble that issues relating to the use of ocean space are closely interrelated and need to be considered as a whole. Planning of ocean space is the logical advancement and structuring of obligations and of the use of rights granted under Unclos and a practical tool in assisting Member States to comply with their obligations.
- (8) In order to promote the sustainable coexistence of uses and, where applicable, the appropriate apportionment of relevant uses in the maritime space, a framework should be put in place that consists at least of the establishment and implementation by Member States of maritime spatial planning, resulting in plans.
- (9) Maritime spatial planning will contribute to the effective management of marine activities and the sustainable use of marine and coastal resources, by creating a framework for consistent, transparent, sustainable and evidence-based decision-making. In order to achieve its objectives, this Directive should lay down obligations to establish a maritime planning process, resulting in a maritime spatial plan or plans; such a planning process should take into account land-sea interactions and promote cooperation among Member States. Without prejudice to the existing Union *acquis* in the areas of energy, transport, fisheries and the environment, this Directive should not impose any other new obligations, notably in relation to the concrete choices of the Member States about how to pursue the sectoral policies in those areas, but should rather aim to contribute to those policies through the planning process.
- (10) In order to ensure consistency and legal clarity, the geographical scope for maritime spatial planning should be defined in conformity with existing legislative instruments of the Union and international maritime law, in particular Unclos. The competences of Member States relating to maritime boundaries and jurisdiction are not altered by this Directive.
- (11) While it is appropriate for the Union to provide a framework for maritime spatial planning, Member States remain responsible and competent for designing and determining, within their marine waters, the format and content of such plans,

⁵ Regulation (EU) No 1255/2011 of the European Parliament and of the Council of 30 November 2011 establishing a Programme to support the further development of an Integrated Maritime Policy (OJ L 321, 5.12.2011, p. 1).

⁶ Regulation (EU) No 508/2014 of the European Parliament and of the Council of 15 May 2014 on the European Maritime and Fisheries Fund and repealing Council Regulations (EC) No 2328/2003, (EC) No 861/2006, (EC) No 1198/2006 and (EC) No 791/2007 and Regulation (EU) No 1255/2011 of the European Parliament and of the Council (OJ L 149, 20.5.2014, p. 1).

including institutional arrangements and, where applicable, any apportionment of maritime space to different activities and uses respectively.

- (12) In order to respect proportionality and subsidiarity, as well as to minimise additional administrative burdens, the transposition and implementation of this Directive should to the greatest extent possible build upon existing national, regional and local rules and mechanisms, including those set out in Recommendation 2002/413/EC of the European Parliament and of the Council⁽⁷⁾ or in Council Decision 2010/631/EU⁽⁸⁾.
- (13) In marine waters, ecosystems and marine resources are subject to significant pressures. Human activities, but also climate change effects, natural hazards and shoreline dynamics such as erosion and accretion, can have severe impacts on coastal economic development and growth, as well as on marine ecosystems, leading to deterioration of environmental status, loss of biodiversity and degradation of ecosystem services. Due regard should be had to these various pressures in the establishment of maritime spatial plans. Moreover, healthy marine ecosystems and their multiple services, if integrated in planning decisions, can deliver substantial benefits in terms of food production, recreation and tourism, climate change mitigation and adaptation, shoreline dynamics control and disaster prevention.
- (14) In order to promote the sustainable growth of maritime economies, the sustainable development of marine areas and the sustainable use of marine resources, maritime spatial planning should apply an ecosystem-based approach as referred to in Article 1(3) of Directive 2008/56/EC with the aim of ensuring that the collective pressure of all activities is kept within levels compatible with the achievement of good environmental status and that the capacity of marine ecosystems to respond to human-induced changes is not compromised, while contributing to the sustainable use of marine goods and services by present and future generations. In addition, an ecosystem-based approach should be applied in a way that is adapted to the specific ecosystems and other specificities of the different marine regions and that takes into consideration the ongoing work in the Regional Sea Conventions, building on existing knowledge and experience. The approach will also allow for an adaptive management which ensures refinement and further development as experience and knowledge increase, taking into account the availability of data and information at sea basin level to implement that approach. Member States should take into account the precautionary principle and the principle that preventive action should be taken, as laid down in Article 191(2) of the Treaty on the Functioning of the European Union.
- (15) Maritime spatial planning will contribute, inter alia, to achieving the aims of Directive 2009/28/EC of the European Parliament and of the Council⁽⁹⁾, Council Regulation (EC) No 2371/2002⁽¹⁰⁾, Directive 2009/147/EC of the European Parliament and of the Council⁽¹¹⁾, Council Directive 92/43/EEC⁽¹²⁾, Decision No

⁹ Directive 2009/28/EC of the European Parliament and of the Council of 23 April 2009 on the promotion of the use of energy from renewable sources and amending and subsequently repealing Directives 2001/77/EC and 2003/30/EC (OJ L 140, 5.6.2009, p. 16).

¹² Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora (OJ L 206, 22.7.1992, p. 7).

884/2004/EC of the European Parliament and of the Council⁽¹³⁾, Directive 2000/60/EC of the European Parliament and of the Council⁽¹⁴⁾, Directive 2008/56/EC, recalling the Commission communication of 3 May 2011 entitled 'Our life insurance, our natural capital: an EU biodiversity strategy to 2020', the Commission communication of 20 September 2011 entitled 'Roadmap to a Resource Efficient Europe', the Commission communication of 16 April 2013 entitled 'An EU Strategy on Adaptation to Climate Change' and the Commission communication of 21 January 2009 entitled 'Strategic goals and recommendations for the EU's maritime transport policy until 2018', as well as, where appropriate, those of the Union's Regional Policy, including the sea-basin and macro-regional strategies.

- (16) Marine and coastal activities are often closely interrelated. In order to promote the sustainable use of maritime space, maritime spatial planning should take into account land-sea interactions. For this reason, maritime spatial planning can play a very useful role in determining orientations related to sustainable and integrated management of human activities at sea, preservation of the living environment, the fragility of coastal ecosystems, erosion and social and economic factors. Maritime spatial planning should aim to integrate the maritime dimension of some coastal uses or activities and their impacts and ultimately allow an integrated and strategic vision.
- (17) This framework Directive does not interfere with Member States' competence for town and country planning, including any terrestrial or land spatial planning system used to plan how land and coastal zone should be used. If Member States apply terrestrial planning to coastal waters or parts thereof, this Directive should not apply to those waters.
- (18) Maritime spatial planning should cover the full cycle of problem and opportunity identification, information collection, planning, decision-making, implementation, revision or updating, and the monitoring of implementation, and should have due regard to land-sea interactions and best available knowledge. Best use should be made of mechanisms set out in existing or future legislation, including Commission Decision 2010/477/EU⁽¹⁵⁾ and the Commission's Marine Knowledge 2020 initiative.
- (19) The main purpose of maritime spatial planning is to promote sustainable development and to identify the utilisation of maritime space for different sea uses as well as to manage spatial uses and conflicts in marine areas. Maritime spatial planning also aims at identifying and encouraging multi-purpose uses, in accordance with the relevant national policies and legislation. In order to achieve that purpose, Member States need at least to ensure that the planning process or processes result in a comprehensive planning identifying the different uses of maritime space and taking into consideration long-term changes due to climate change.
- (20) Member States should consult and coordinate their plans with the relevant Member States and should cooperate with third-country authorities in the marine region concerned in conformity with the rights and obligations of those Member States and of the third countries concerned under Union and international law. Effective cross-border cooperation between Member States and with neighbouring third countries requires that the competent authorities in each Member State be identified. Member States therefore need to designate the competent authority or authorities responsible for the implementation of this Directive. Given the

differences between various marine regions or sub-regions and coastal zones, it is not appropriate to prescribe in detail in this Directive the form which those cooperation mechanisms should take.

- (21) The management of marine areas is complex and involves different levels of authorities, economic operators and other stakeholders. In order to promote sustainable development in an effective manner, it is essential that stakeholders, authorities and the public be consulted at an appropriate stage in the preparation of maritime spatial plans under this Directive, in accordance with relevant Union legislation. A good example of public consultation provisions can be found in Article 2(2) of Directive 2003/35/EC of the European Parliament and of the Council⁽¹⁶⁾.
- (22) Through maritime spatial plans, Member States can reduce the administrative burden and costs in support of their action to implement other relevant Union legislation. The timelines for maritime spatial plans should therefore, where possible, be coherent with the timetables set out in other relevant legislation, especially: Directive 2009/28/EC, which requires the share of energy from renewable sources in gross final consumption of energy in 2020 to be at least 20 % and which identifies coordination of authorisation, certification and planning procedures, including spatial planning, as an important contribution to the achievement of the Union's targets for energy from renewable sources; Directive 2008/56/EC and point 6 of Part A of the Annex to Decision 2010/477/EU, which require Member States to take the necessary measures to achieve or maintain good environmental status in the marine environment by 2020 and which identify maritime spatial planning as a tool to support the ecosystem-based approach to the management of human activities in order to achieve good environmental status; Decision No 884/2004/EC, which requires that the trans-European transport network be established by 2020 by means of the integration of Europe's land, sea and air transport infrastructure networks.
- (23) Directive 2001/42/EC of the European Parliament and of the Council⁽¹⁷⁾ establishes environmental assessment as an important tool for integrating environmental considerations into the preparation and adoption of plans and programmes. Where maritime spatial plans are likely to have significant effects on the environment, they are subject to Directive 2001/42/EC. Where maritime spatial plans include Natura 2000 sites, such an environmental assessment can be combined with the requirements of Article 6 of Directive 92/43/EEC, to avoid duplication.
- (24) With a view to ensuring that maritime spatial plans are based on reliable data and to avoid additional administrative burdens, it is essential that Member States make use of the best available data and information by encouraging the relevant stakeholders to share information and by making use of existing instruments and tools for data collection, such as those developed in the context of the Marine Knowledge 2020 initiative and Directive 2007/2/EC of the European Parliament and of the Council⁽¹⁸⁾.
- (25) Member States should send copies of their maritime spatial plans and any updates to the Commission, so as to enable the latter to monitor the implementation of this Directive. The Commission will use the information provided by the Member States, and existing information available under Union legislation, to keep the

European Parliament and the Council informed of progress made in implementing this Directive.

- (26) Timely transposition of this Directive is essential since the Union has adopted a number of policy initiatives that are to be implemented by the year 2020 and which this Directive aims to support and complement.
- (27) A landlocked Member State would be under a disproportionate and unnecessary obligation if it had to transpose and implement this Directive. Therefore, such Member States should be exempted from the obligation to transpose and implement this Directive,

HAVE ADOPTED THIS DIRECTIVE:

CHAPTER I

GENERAL PROVISIONS

Article 1

Subject matter

1. This Directive establishes a framework for maritime spatial planning aimed at promoting the sustainable growth of maritime economies, the sustainable development of marine areas and the sustainable use of marine resources.
2. Within the Integrated Maritime Policy of the Union, that framework provides for the establishment and implementation by Member States of maritime spatial planning, with the aim of contributing to the objectives specified in Article 5, taking into account land-sea interactions and enhanced cross-border cooperation, in accordance with relevant Unclos provisions.

Article 2

Scope

1. This Directive shall apply to marine waters of Member States, without prejudice to other Union legislation. It shall not apply to coastal waters or parts thereof falling under a Member State's town and country planning, provided that this is communicated in its maritime spatial plans.

4. This Directive shall not affect the sovereign rights and jurisdiction of Member States over marine waters which derive from relevant international law, particularly Unclos. In particular, the application of this Directive shall not influence the delineation and delimitation of maritime boundaries by the Member States in accordance with the relevant provisions of Unclos.

Article 3

Definitions

For the purposes of this Directive, the following definitions apply:

- (1) 'Integrated Maritime Policy' (IMP) means a Union policy whose aim is to foster coordinated and coherent decision-making to maximise the sustainable development, economic growth and social cohesion of Member States, and

notably the coastal, insular and outermost regions in the Union, as well as maritime sectors, through coherent maritime-related policies and relevant international cooperation;

- (2) 'maritime spatial planning' means a process by which the relevant Member State's authorities analyse and organise human activities in marine areas to achieve ecological, economic and social objectives;
- (3) 'marine region' means the marine region referred to in Article 4 of Directive 2008/56/EC;
- (4) 'marine waters' means the waters, the seabed and subsoil as defined in point (1)(a) of Article 3 of Directive 2008/56/EC and coastal waters as defined in point 7 of Article 2 of Directive 2000/60/EC and their seabed and their subsoil.
